TUNGSHAI UNIVERSITY - INTERNATIONAL COLLEGE

SEPTEMBER 19, 2017

IC Newsletter

Welcome New IC Staff!

Tina Shiao

Tina is from New Taipei City. She traveled to Redding, California, to study in 2015 and met a good man who became her husband. She moved back to Taichung, Taiwan, and got married last year (2016). She likes to hang out with her friends and to try to new things. She feels honored and happy to be the SSE assistant. She says she will do my best to help the teachers and students. She is looking forward to having a great time with the International College.

Dr. Carol Troy

Carol Troy is a native of the American capital, Washington, DC. Though Carol is a "newbie" in her first semester at the IC, she has lived in Taiwan since 1995, when she began teaching here. In 2015, Carol earned a Ph.D. in Management from Feng-Chia University. Carol is both bilingual and bicultural. Her experience teaching and studying in an international environment has helped her appreciate the opportunities and challenges faced by students at the IC.

IC Welcomes New Students and Parents

Welcome to the International College, Class of 2021! This Sunday, the IC community greeted the new freshman class and their families at the office. Along with IBA director Dr. James Sims and SSE director Dr. David Kuo, esteemed IC professors met one-on-one with students to answer any questions about the program. In conjunction with an all-English environment, the IC is committed to interdisciplinary courses, experiential learning, and multicultural exchange activities.

Students and family also met with the IC's four new American mentors who will be working actively alongside the students in and out of the classroom. To commemorate the excitement of their first day, families took pictures with the mentors, who reassured parents that each student will find a home in the close-knit international program. The IC is thrilled to welcome its fourth class and to see these students grow into future global leaders.

Introducing the New IC Mentors

MARKHAM SIGLER

The sole male in the group, Markham graduated from Trinity University with majors in Chinese Studies and International Studies. He loves basketball perhaps more than he should, the music of Radiohead, and doing philosophy.

EMILY LEE

Emily was born in Taiwan where she lived for five years before moving to the states. She studied Chinese and Music at Trinity University. If you need to talk to Emily, chances are you can find her prowling the streets in search of fresh boba. She is quite particular about her boba.

Hong Kong University from 2000-2004, served until 2012 as Tunghai's president, and was vice rector of student affairs for Macau University for the past five years. This wealth of international experience is something rare and exciting, and the International College's administration is thrilled to have President Chen in their corner. Though he will serve at nearby Jiaotong University as a full-time professor, the college expects his presence to loom large as we continue forward.

"Let's Be Honorable"

One of the significant steps the college took this summer was to implement an Honor Code, which will become effective for the incoming freshmen class. The Code was drafted by a pair of our hard-working interns -- Elena Wilson and Amelia Gaither -- and based on the codes they had to sign as students at Trinity University and Davidson University, respectively. Each freshman signed a large posterboard with a copy of the code at Opening Ceremonies on Wednesday, September 13th, also receiving a personal copy. The posterboard will hang in the college's main office for those who pass through to witness. The college hopes this physical contract installs a sense of academic integrity in the new group of students, as the 261-word document ends with this promise: "On my honor, I pledge that I have neither given nor received any unauthorized assistance on this work, and I will continue to abide by this Honor Code."

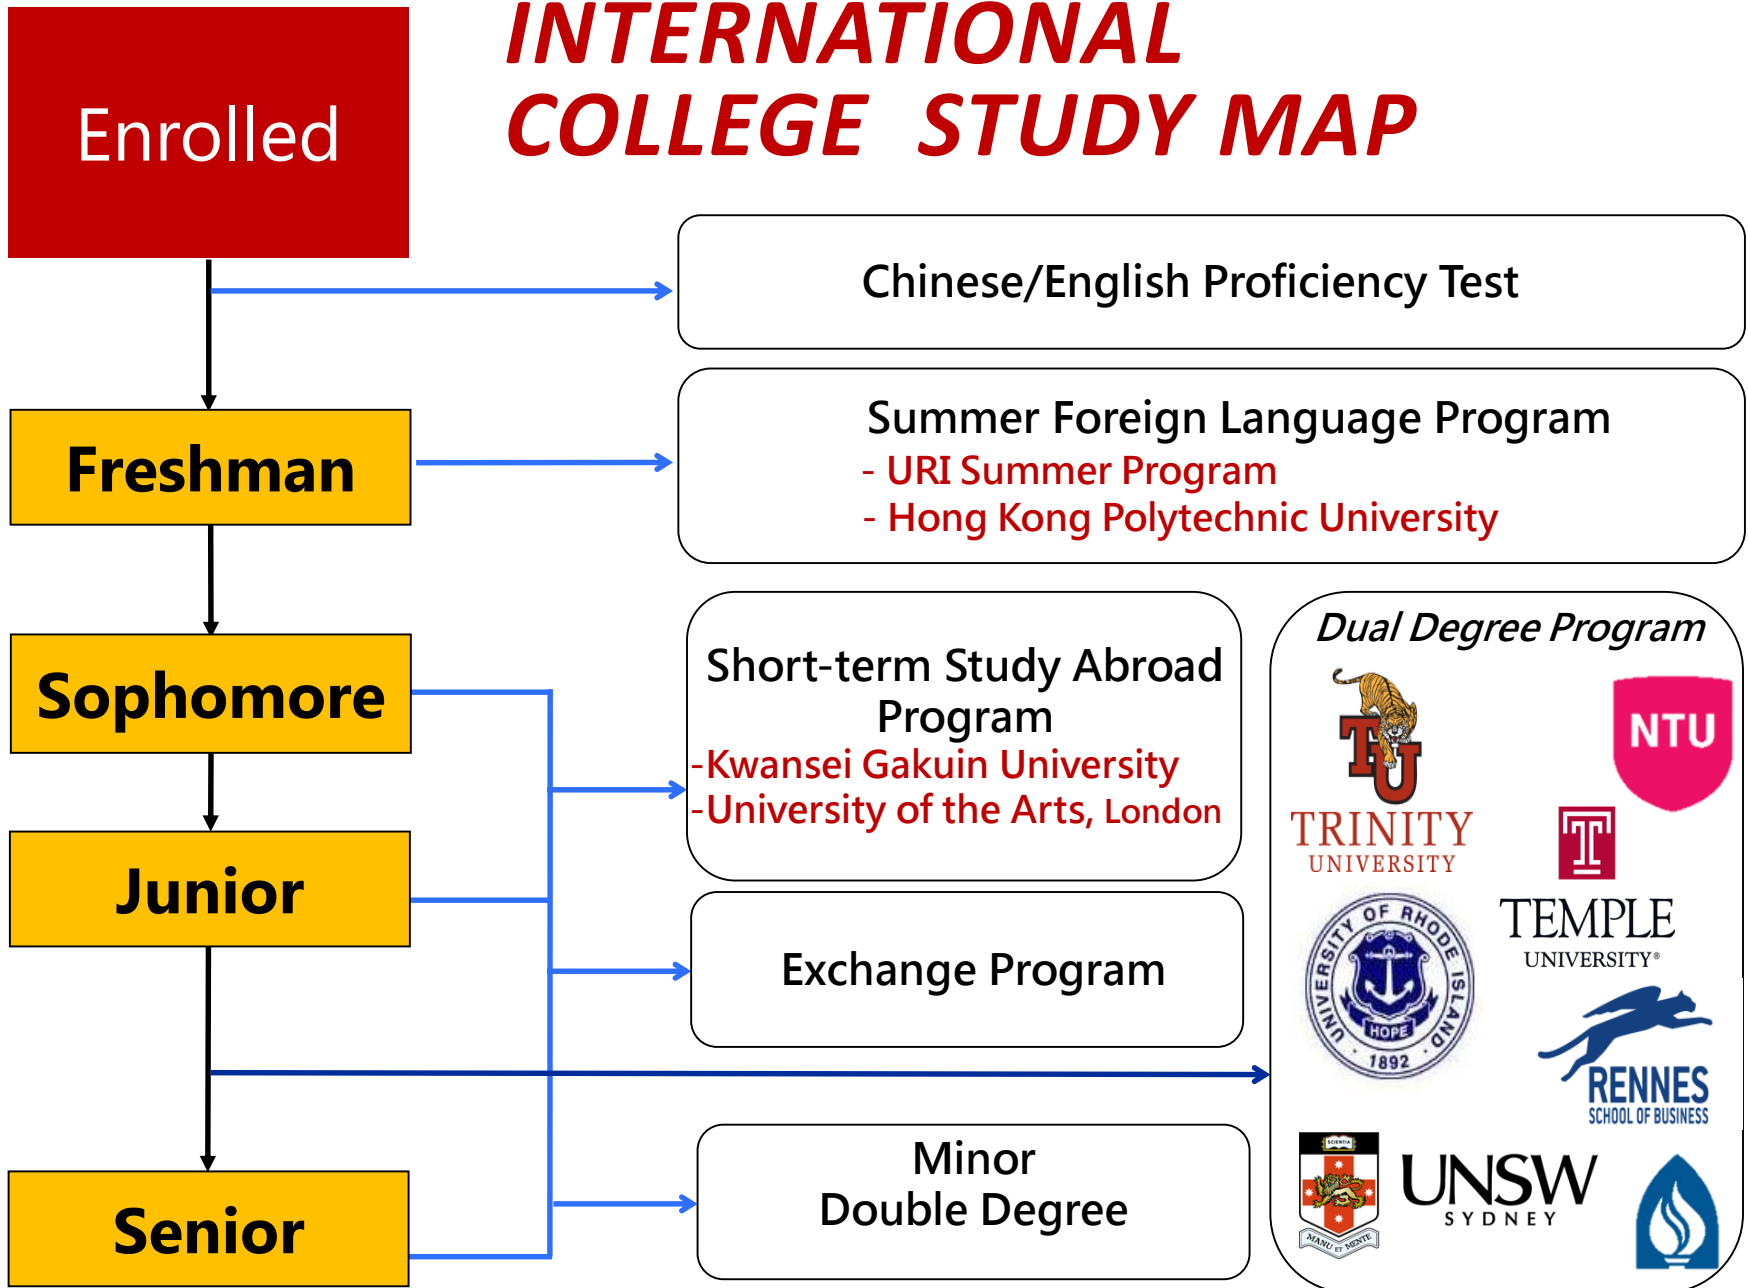

Scavenger Hunt

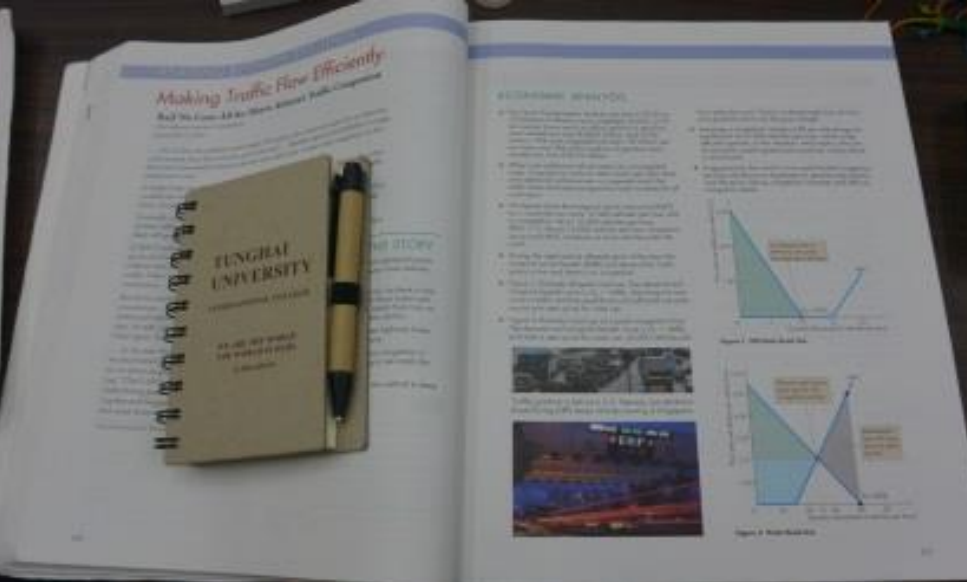

Opening ceremonies witnessed the victories of two freshmen groups in the annual photo scavenger hunt. The winning teams were selected based on creativity, cuteness and teamwork. The scavenger hunt consisted of groups of 10 students searching for designated areas around their new campus.
